## The Upper Case:

- 'Living with Environmental Change is a partnership of 22 major UK public sector funders and users of environmental research, including the research councils and central government departments. ...
- Living with Environmental Change is the politics of inconvenient truths-and-lies and Planet Stupid
- Living with Environmental Change is knowing of recent nuclear waste at Faslane and Coulport.
- Living with Environmental Change is the worry of not knowing how to Live with Environmental Change ...

## the lower case:

- living with environmental change is watching a mother change her environment, happily leaving behind a life's belongings in moving to a home.
- living with environmental change is barely noticing a light in the day as we pass.
- living with environmental change is feeling I should be supporting a mother in Monmouth and not sheltering so richly in the Scottish environment.
- living with environmental change is turning away from large scale Scottish grandeur and the nuclear to attend to detail.

- Temporary inhabitation of place
- Repetition of performance = performing place (later)
- Density of living
- Heterotopic communities

(see [theatreapplied.org](http://theatreapplied.org) and look for Challenging Place)
